This international search report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.

This international search report consists of a total of 4 sheets.

☒ It is also accompanied by a copy of each prior art document cited in this report.

#### 1. Basis of the report

- a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.
 

☐ the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).
- b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:
 

☐ contained in the international application in written form.  
☐ filed together with the international application in computer readable form.  
☐ furnished subsequently to this Authority in written form.  
☐ furnished subsequently to this Authority in computer readable form.  
☐ the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.  
☐ the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.
2. ☐ Certain claims were found unsearchable (See Box I).
3. ☐ Unity of invention is lacking (See Box II).
4. With regard to the title,
 

☒ the text is approved as submitted by the applicant.  
☐ the text has been established by this Authority to read as follows:
5. With regard to the abstract,
 

☐ the text is approved as submitted by the applicant.  
☒ the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.
6. The figure of the drawings to be published with the abstract is Figure No. 1

☒ as suggested by the applicant.  
☐ because the applicant failed to suggest a figure.  
☐ because this figure better characterizes the invention.

☐ None of the figures.

**INTERNATIONAL SEARCH REPORT**International application No.  
PCT/US00/09368**Box III TEXT OF THE ABSTRACT (Continuation of item 5 of the first sheet)**

A portable, hand-held personal digital assistant (100) is provided for simultaneously depicting multiple calendars on a single display. The personal digital assistant includes a portable, hand-held housing (102) including a top face, a bottom face, and a side wall therebetween for defining an interior space. An input device (104) is situated on the top face of the housing for allowing input of data. Associated therewith is a display (110) situated on the top face of the housing for depicting data. Situated in the interior space of the housing is memory (112) for storing a plurality of calendars each including a plurality of scheduled matters. Finally, controller (113) is situated in the interior space of the housing and connected between the input device, the display, and the memory. The controller serves for simultaneously displaying a plurality of calendars on the display. By conveniently displaying the multiple calendars, the present invention allows a user to more effectively manipulate the same.
